

Recommended Qualification Structure for Supervising Licensed Asbestos Removal (Construction) Level 3

This structure has been recommended by employers and stakeholders from the above occupational area for organisations to form the basis of academic capability and competence outcomes. Qualifications with a competence outcome at the above level must have units derived from the following National Occupational Standards (NOS) and consist of the mandatory/optional groups as stated.

MANDATORY (Total 9)

- VR209v2 Confirm work activities and resources for the work
- VX10v2 Develop and maintain professional working relationships
- VR211v2 Confirm the occupational method of work
- VR212v2 Implement and maintain health, safety and welfare
- VR213v2 Co-ordinate and organise work operations
- VR462v2 Install and remove licensed asbestos enclosure or containment areas
- VR463v2 Licensed asbestos removal

Plus optional (TWO from the following)

- VR215v2 Monitor progress against work schedules
- VR216v2 Confirm work meets quality standards
- VR467v2 Repair or encapsulate asbestos containing materials

Unit endorsements for Supervising Licensed Asbestos Removal (Construction) Level 3

Where industry requests; qualifications can be endorsed to show an option route and the type of resources and/or activities that relate to the unit. Listed below are the endorsements that can apply for units derived from the following NOS.

NOS	Endorsement
VR462	One of the following: Enclosure area Containment area

Note: Where industry requests an Awarding Organisation to further endorse a unit, the Awarding Organisation must first seek approval from the Standards Setting Body to ensure the endorsement is appropriate to the unit.
