Site management environmental training scheme (SMETS) eCourse

eCourse Information

The *Site management environmental training scheme* eCourse is aimed at site managers and aspiring site managers who are looking to improve their overall knowledge of environmental management and legislation as it applies to UK construction sites.

This course will prepare you for managing the environmental aspects of a construction site by helping you put into practice your legal, moral and social responsibilities.

When you buy this Grant eligible eCourse you get access to:

- the interactive online course material
- an online version of the Construction health and safety awareness (GE700 Es) publication
- an online end of course examination

Top Tip

To take the exam you must have access to a laptop or desktop computer, it cannot be taken on a mobile or tablet.

Who is it for?

Site managers and supervisors who are looking to improve their overall knowledge of environmental management and legislation, as it applies to UK construction sites

You need to be able to read and understand English to a good standard.

What does it cover?
